Re: Application for Continued Operation  
Lenoir County Construction and Demolition Landfill (CDLF)  
Lenoir County, Permit No. 54-03, DIN 8071

Dear Mr. Miller:

On June 20, 2008, an application was submitted on your behalf by Municipal Engineering Services Co., Inc. (MESCO) for the continued operation of the Lenoir County CDLF as required by 15A NCAC 13B .0547(4).

On January 7, 2009, the Section issued a comment letter (DIN 6567) to you and your consultant, Mr. Wayne Sullivan of MESCO. Mr. Sullivan of MESCO was contacted via email on April 3, 2009, requesting an update on revisions to the application. The Section received a response stating that he expected to answer the comments by the following week. The Section sent a letter to you on May 4, 2009, concerning the need to respond to meet the statutory requirements. The Section has not received a response from you or MESCO since the April 3<sup>rd</sup> email.

A revised application which completely and adequately addresses the comments made in the technical review letter is required as soon as possible. Please provide this document to the Section by August 14, 2009, or contact the Section to establish a timely schedule and commitment to do so. Failure to respond could put the permit in jeopardy for future action. If there are any issues that require the Section's assistance, please contact me at 919-508-8525. Your cooperation in the matter is appreciated.

Sincerely,

Patricia M. Backus, P.E.  
Environmental Engineer  
Solid Waste Section
